Baseline ICT Standards

The **Baseline ICT Standards** is a set of ICT skill competencies set out in four **progressive** Key Stages. These represent the **basic level** of knowledge, skills and values that pupils need in order to fully benefit from a **curriculum enriched with ICT**, and eventually **thrive in a technology-driven society**. These standards have been benchmarked against overseas ICT standards as well as curriculum and existing practices in our schools.

ICT Skills Attainment at end of Primary Education	Baseline ICT Skill Areas
Operate computers and applications in ICT-enabled learning environment	Basic Operations
Search for information over the Internet	Learning with Searches
Create a short document using a word processor	Learning with Text
Create a short presentation with multimedia elements	Learning with Multimedia
Represent tables of information in word processors and spreadsheets	Learning with Spreadsheets
Communicate over the Internet	Learning with Communication Tools
Collect data using ICT tools	Learning with Data Collection Tools

THINK

Cyber Wellness Skills and Values

- Use appropriate language, demonstrate mutual respect and observe etiquette in communication
- Be aware of and take precautionary steps against the dangers of cyber abuse
- Prevent and minimise security risks in different online situations
- Respond appropriately when encountering illegal or unsuitable materials on the Internet

- Protect private information against exploitation
- Maintain a balanced use of technology to avoid computer addiction
- Respect intellectual property and comply with copyright laws and regulations
- Verify the credibility of information and that information is communicated accurately and responsibly
